

Mingu Kang

Curriculum Vitae

109, Seobu-ro 2126beon-gil, Jangan-Gu, Suwon, Republic of Korea
Email : gms5560@g.skku.edu — Phone number : +82) 010-9543-5560

EDUCATION

Bachelor of Science

February 2022 – Current

SungKyunKwan University, Seoul, South Korea

Applied Artificial Intelligence

Total GPA : 4.29 / Major GPA : 4.45

WORK EXPERIENCE

Research Internship

August 2024 – Current

- Korea Advanced Institute of Science and Technology, Seoul, South Korea
- Intelligence Mobile Manipulation LAB (Advisor: Beomjoon Kim)
- Research about robot planning through 3d representation and large language model

Research Internship

December 2023 – July 2024

- SungKyunKwan University, Suwon, South Korea
- Computer System & Intelligence LAB (Advisor: Younsung Kim)
- Research about high intelligence robot policy and Diffusion Model

DACON outside author of a study textbook

April 2024 – Current

- DACON, Seoul, South Korea
- Creating Textbooks for SVMs for AI Learners

PROJECT

Enhancing Continual Learning Efficiency: Direct Knowledge Distillation and Indirect Knowledge Recycling (On-going)

February 2024 – Current

- SungKyunKwan University, Suwon, South Korea
- Data eXperience LAB (Advisor: Eunil Park)

ADDITIONAL INFORMATION

SW-Centered University Digital Competition: AI Sector

July 2024 – August 2024

- Participate in Dacon AI model competition open to university students from SW-centered universities.
- Development of AI model to detect fake voice of the generating AI. Top 0.4% (1 of 219).
- Minister of Science and ICT Award.

2024 National Institute of Korean Language Artificial Intelligence's Korean Language Proficiency Competition

July 2024 – August 2024

- Development of an AI model to distinguish the context of conversations in a Korean large language model. Top 5.
- National Institute of Korean Language Award

HD Hyundai AI Challenge

September 2023 – November 2023

- Preliminary round: Development of AI model to predict port vessel waiting time. Top 6% (18 of 330).
- Final round: Development of AI model to predict ship waiting time in port. Top 4 (4 of 11).

LG AIMERS 4th

January 2024 – March 2024

- LG Aimers is LG Group's youth education program that provides AI education and the opportunity to experience participating in AI hackathons that deal with LG actual data.
- Development of AI model to predict B2B Sales opportunity creation based on MQL Data. Top 7% (60 of 844).

AWARDS AND HONORS

AWARDS

- Minister of Science and ICT Award
- National Institute of Korean Language Award

HONORS

- Presidential Science Scholarship in Republic of Korea
- Academic Excellence Scholarship for 2023 first semesters
- Academic Excellence Scholarship for 2023 second semesters
- Artificial Intelligence Innovation and Convergence at Sungkyunkwan University Project Excellence Scholarship
- 2023 Fall Semester Sungkyunkwan university Dean's List
